RIDER Training Courses

2014

- Get your motorcycle license
- Learn expert motorcycle techniques
- Ride better. Ride smarter. Ride longer.

www.motorcyclesafety.org

Minnesota Motorcycle Safety Center (MMSC)

The MMSC has served Minnesota riders for over 25 years with affordable, high-quality professional training and education. Instructors are Motorcycle Safety Foundation (MSF)-certified and dedicated to building and improving riding skills. The MMSC offers a wide variety of courses at 30 locations for riders of all skill and experience levels.

Basic Rider Course (BRC) \$160

This 14.5 hour course is the best way to earn your motorcycle license. No experience necessary. Training motorcycles are provided. It is also a course recommended for returning riders who have not been on a bike in a while.

Introduction to a Motorcycle Course \$55

This four hour course is for true novices who want hands-on instruction with motorcycle controls before taking the BRC. This course is offered at Brainerd, Eveleth and White Bear Lake.

BRC Refresher Course \$55

This five hour course is for BRC graduates who have their motorcycle license and want additional coaching and practice time on state-program motorcycles. Only available in Rosemount at Dakota County Technical College.

Moped Course \$35

This 4.5 hour classroom-only course meets state requirements for a moped permit.

Confident Rider Course (formerly BRC2) \$55*

In this five-hour course, formerly known as the BRC 2, riders provide their own bike or scooter. It will build upon existing skills and knowledge. This course is available at Rosemount, White Bear Lake and all Greater Minnesota locations.

Civilian Police Motorcycle Course (CPMC) \$75*

This advanced eight hour course is for experienced riders. The course uses the same techniques designed to train and keep police motor officers safe in any riding or traffic situation. Riders provide their own bikes and should have at least three years or 12,000 miles of experience to take this course.

This course is offered at Brooklyn Park Hennepin Technical College and Willmar Ridgewater College.

CPMC — Level 2 \$50*

For graduates of the CPMC, the advanced course is five hours and adds four new drills to the already challenging format.

* A Special Group Rate is available — visit motorcyclesafety.org for more information.

3-Wheel Experienced Rider Course (3WERC) \$125

This is an advanced four hour course for riders with three-wheel experience. This course will further develop safe riding skills. Riders provide their own sidecar rig or trike. To take this course, riders should be familiar with motorcycle controls, straight-line riding, turning, shifting and stopping. Courses available at Rochester, Brainerd and White Bear Lake.

Basic Motorcycle Maintenance \$65

This course teaches motorcycle maintenance basics. This course is offered at Anoka and Rosemount.

State Skill Test Waiver

If you are 18 or older and have a valid Minnesota driver's license and motorcycle instruction permit, the state skill test for your motorcycle endorsement will be waived if you successfully complete the BRC. You must have a motorcycle instruction permit in possession when taking the BRC to receive your motorcycle endorsement. Successful completion means 100 percent attendance and passing the skills test. Riders under 18 are not eligible for the skill test waiver. Riders who have failed a state and/or MMSC skill test twice are not eligible for the State Skill Test Waiver.
